

DESCRIPTION

The **GEFCO Select #EE117-Series Interactive Fountain Action Sensor** is used on interactive or participatory fountains to initiate a sequence of actions to be executed by the fountain controller when activated.

This sensor can be mounted in locations such as actions stations or inbedded in decorative fountain statues such as animal statues. When a child/person finds the area where the sensor is located (such as maybe behind an animal's ear) the fountain will execute the sequences associated with the input from that sensor. Another area the sensor can be mounted is in the illustrated action station

TYPICAL SPECIFICATIONS:

- * **GEFCO Select #EE117** Interactive Fountain Action Sensor:
 - NEMA 1 construction.
 - equipped with:
 - 6 ft. of #22AWG 4 conductor cable.
 - 10-20VDC operation.
 - N.C. NPN output, 100mA limit.
 - M20 male thread mounting.
 - integral LED for activation indication.
 - sensitivity adjustment trim pot.

OPTIONS:

- *GEFCO #EE117-1 Action Station with:
 - 4-1/8" dia. copper or SST pipe (specify), XX" long (specify).
 - 6" Square submersible bronze junction box, U.L. Listed.
 - PVC dome cover, threaded for sensor mounting.

Replacement Parts:

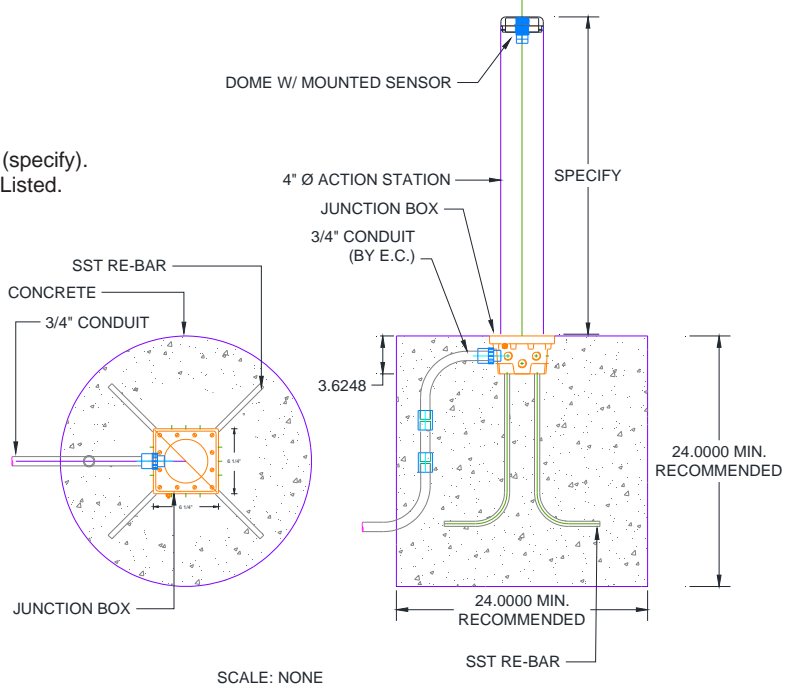

- Sensor: NONE
- Action Station:
- A junction box gasket.
 - B SST junction box cover screws.
 - C 4" PVC cover dome.
